An alternative to traditional fencing

Sturdy Gates 13
Our range of matching gates

Technical Specifications 14

*British Made
with pride and expertise*

Sturdy Lap

The Sturdy Lap is our best selling panel, popular right across the length and breadth of the country. We only use heavy duty battens and rails in our construction which sets our panels apart from our competitors and ensures that your Sturdy Lap fencing will look good for years to come.

Finish Options

All our products are available in all three of our finish options.

Pressure Treated

The pressure treatment process allows our preservative to penetrate deeper into the timber, for greater protection against rot and insect attack.

15 YEARS

Dip Treated

Our dipped panels are treated with Aquatan T5 which has been designed especially for Garden Timbers. It adds a decorative surface color to the panel.

10 YEARS

10 YEARS

10 YEARS

Guaranteed Against Decay
Subject to T&Cs

Our Timber

Sustainability

All our timber is supplied by mills from across the UK and Ireland who source their material from sustainable forests within the same area. (Home Grown)

Variations

Timber is a natural product and can be prone to changes in appearance if it is subject to hot conditions (warping), it normally returns to its previous appearance when the humidity increases.
